I like the trimmed down versions you guys created, but I did add back in a few Qs that I think are still relevant. I have a couple comments as well in the attached. Take a look and let me know if you have any questions. We need to get this back up to YT today if possible.

Thanks.

Here's a starting point, I added in some about the ligation/IARC that we could touch on.

Can you guys take a crack at whittling these down as YT is asking? My general is at 10 this morning, but you don't have to have it by then. As she says, she and I will go over them at the general so I will catch up with you later this morning or early afternoon. Thanks.

**Subject:** RE: draft glyphosate Q+As for AA confirmation

I think the questions need to be more pointed and with less background. I'd rather have just a few Q&As than too generic since these are supposed to be tough questions...I've include chlorpyrifos for your reference. Maybe we can go through some potential questions in the general tomorrow morning. Thanks.

**Subject:** draft glyphosate Q+As for AA confirmation

Neil and Kaitlin,

I updated the Q+As for glyphosate. This is for AA confirmation hearing. This is rather extensive and covers a wide variety of topics, so not sure what senior management will want to focus on.

Also, should we circulate this to the team for comment? Especially as it relates to the cancer topic?
